**To:** Tony Pace (tpace@pirnie.com)  
**Subject:** Final (Redline/Strikeout Version) RI Report and Final QCS/AR Report Addendum (FTA, LARC 60 Maintenance Area, and Auto Craft Bldg. Area)

The Final (Redline/Strikeout Version) RI Report and Final QCS/AR Report Addendum for the FTA, LARC 60 Maintenance Area, and Auto Craft Bldg. Area have been reviewed by this office. Please note/address the following comments:

RI ReportResponse to VDEQ Comments:

1. Response to comment # 7 states, "The total arsenic concentration should have read <0.01 not 40.01. The table will be revised." Please confirm the units. I assume the <0.01 in the response above is in mg/L.
2. The response to comment #26, found on page 4-39, has not been red lined.
3. Response to comment # 35 states, "This data has been included in the revised report." Where is this data included?
4. Page 6-53, first paragraph, first sentence....replace "TBC" with "RBC".

Responses to 3<sup>rd</sup> set of VDEQ Comments (Sharon Wilcox Reviewer) – Comments on FTA Site Human Health Risk Assessment:

Add the following to the response to comments # 7 & 10, "...; therefore, no further monitoring is necessary."

Final QCS/AR Report Addendum

No comments.
